Summary

Motivated and hardworking graduate looking for an opportunity to start my career and grow with a reputed organization by contributing to its goals with commitment and passion.

Skills

HTML	CSS
Python	Java
SQL	

Projects

Travel Booking System using SQL ⎘
- Designed a relational database for a Travel Booking System with tables for users, flights, hotels, bookings, payments, and cancellations.
- Used SQL queries to analyze data like average hotel price, total revenue, and most booked flights.
- Created stored procedures for booking history, revenue reports, payment status, and cancellations.
- Built a summary view combining user, flight, hotel, and car rental details for reporting.

To-Do List Web Application using Python (Flask), HTML, CSS ⎘
- Developed a simple To-Do list web app using Flask to manage tasks through a browser interface.
- Implemented features like adding, deleting, and marking tasks as complete.
- Used Python list data structure for in-memory task storage without a database.
- Created responsive UI using HTML and CSS with Flask's Jinja2 template engine.
- Demonstrated understanding of backend routing, form handling, and dynamic content rendering.

Book Store Web Page Using HTML and CSS ⎘
- Developed a fully responsive and visually appealing online bookstore front page using HTML and CSS.
- The website features a modern user interface with a navigation bar, book catalog displayed in a 4-column grid, and user authentication pages (Login and Sign-Up).

Certifications

Hacker Rank	**NPTEL**
SQL Basic Certificate.	Python for Data Science.
Issued : june 2025	Issued : oct 2024

Education

B.Sc Computer Science, *Gurunanak College, Chennai* 2022 – 2025
CGPA - 8.7

HSC (12th Grade), *David Matriculation Higher Secondary School, Chennai* 2021 – 2022
Percentage - 77%

SSLC (10th Grade), *David Matriculation Higher Secondary School, Chennai* 2019 – 2020
Percentage - 75%
